

Strengthened Swiss-German Client Offering

Morison International's (MI) German member firm, RIEDLINGER and Switzerland member firm, artax Fide Consult are working closely together to further improve the service offered to their Swiss-German clients.

The two member firms enjoy an excellent relationship and have successfully serviced multiple clients together over many years. Given the ever-increasing client work taking place between south Germany and north Switzerland, the firms have developed a programme to further develop their understanding of the market and client needs.

As part of this programme, two employees from RIEDLINGER have been welcomed to the offices of artax Fide Consult, where Urs Fischer and his team provide an in-depth review of the Swiss tax system. artax Fide Consult is currently preparing a group of employees for a similar visit to RIEDLINGER.

This is a great example of how member firms can work together to gain knowledge and provide better services to their clients. Other member firms are encouraged to follow this example.

On behalf of all members, MI would like to congratulate RIEDLINGER and artax Fide Consult on this great collaboration!
